

HIGHWAY WATCH TRAINING

IMPORTANT REMINDER

FOR Georgia CDL Holders:

The new Georgia Law Requiring CDL Holders to complete Highway Watch Training in order to RENEW or apply for a NEW CDL goes into effect July 1, 2006.

What this means:

- You **DO NOT** have to train every CDL Holder by July 1, 2006
- You **DO WANT** to make sure drivers with a **July or August 2006** renewal date are the first to be trained.
(Submit these registration forms first, allow 2-3 weeks for processing and receipt of the ID Cards*)
 - GA DDS will start enforcing this requirement with Drivers who's CDLs expire July 2006 and beyond.
 - How will DDS check this new requirement? DDS will ask CDL holders to show their Highway Watch ID card at the time they renew their license or obtain a New CDL.
- What Drivers do at renewal time.
 - Drivers will be asked to show their Highway Watch^x ID card (trained individuals receive the card after their registration form*(included in this kit and available as a PDF file @ www.gmta.org), is filled out and submitted for processing)
- **Coming Soon:** The ability to register securely on-line will be available at www.gmta.org by July 1, 2006. Those who register on-line will be able to print a temporary Highway Watch ID Card Receipt to take to a DDS office.
